Mr. and Mrs. W. B. Robinson's statement:
Alexandria, Va., April 14, 1904.
We lived with our family of eight children for seven years at 911 Wolfe street. After the men put down a lot of pipe in the ground the water came up in the yard and the children and we had no sickness while we drank it. We declare we found it good and healthy and the neighbors remarked that our children looked remarkably ruddy. We are now applicants to get back so as to have the benefits of the water.

in any germ disease, as every physician knows.

Liquozone will do for sick humanity more than all the drugs in the world combined. It does what no skill can accomplish without it. It cures diseases which medicine never cured.

Acts Like Oxygen

Liquozone is the result of a process Liquozone is the result of a process which, for more than 20 years, has been the constant subject of scientific and chemical research. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, these gases

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone kills rect and uncertain. Liquozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

This Company, after testing Liquozone for two years in the most difficult germ diseases, paid \$100,000 for the American rights. That is the highest price ever paid for similar rights on any scientific discovery.

We are now spending \$500,000 to give the product away—one bottle to each of a million sick ones. We are doing this so that every sick one may let Liquozone itself prove what it can do.

Kills Inside Germs

The greatest value of Liquozone lies in the fact that it kills germs in the body without killing the tissues, too. And no man knows another way to do it. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease, as every physician knows.

All diseases that bugin with fover—all inflammation—one that it cannot kill.

The result is a product that does what oxygen does. Oxygen gas, as you know, is the very source of vital-liquozone is a vitalizing tonic with which no other known product can compare. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill.

The reason is that germs are vegetables; and Liquozone, which—like to an animal, is deadly to vegetal matter. It is carried by the blood to every cell of every tissue, and no touch of impurity, no germ of disease, can exist where Liquozone is discase or it. This is our free discase, can exist where Liquozone is gift ourselves for it. This is our free discase, can exist where Liquozone is, and what it a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease, as every physician knows.

The result is a product that does downed as a vitalizing tonic with which no other known product can compare. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill.
